

The Hub of Future Decentralized Finance

Built on the Internet Computer, ICPSwap establishes an ecosystem of genuinely decentralized finance by refactoring the way users and developers build projects jointly.

ICPSwap for Users

- Swap Tokens
- Add Liquidity with MOR (Market-making with Optional Ranges)
- Make the Limit Order
- Mine and Stake in Pools
- Learn About the Project on Token List
- Vote on community governance
- Discuss the Projects in Chat
- Receive Candy Airdrops

Offer Full-stack Services to Benefit the DFINITY Ecosystem

ICPSwap provides full-stack financial and market services for the projects in the DFINITY ecosystem, with ICPSwap's financial service systems, market service systems, and innovative extension systems, thereby benefiting the entire DFINITY ecosystem.

Users

Developers

The Unique ICPSwap

Financial Services

- Custom Manage Token List
- Custom Pools
- Market-making with Optional Ranges + Limit Order

Market Services

- Token List
- ADs
- Chat and One-click Community Creation

Innovative Extension

- The ChainKey Cross-chain Functions for the User-inflow Generation and Transaction
- Innovation on the Non-Fungible Token
- De-oracization

ICPSwap for Developers

Build the DFINITY Ecosystem Projects on ICPSwap

Mint Token

1

Manage Token List

2

Add Liquidity

4

Create Pools

3

Swap

5

Create A Community

6

Buy ADs

7

Tokenomics

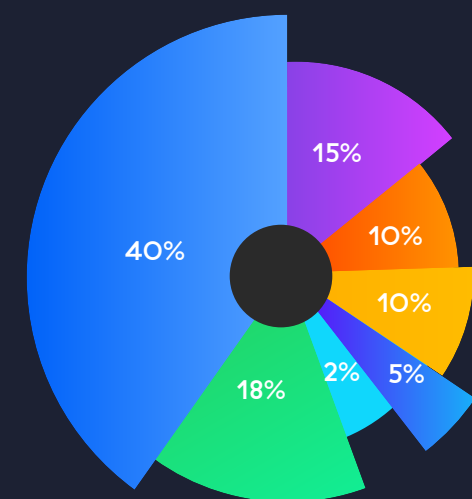

ICPSwap Token (ICS)

Total: 1 billion

ICS is an ecological token of ICPSwap as well as a governance token. With ICPSwap's flexible, diverse, and business incentive mining applications and governance scenarios, each ICS embeds itself in the entire ICPSwap ecosystem. ICS will eventually capture the value of the ICPSwap ecosystem by creating a perfect deflationary model through continuous repurchase and burn.

Road Map

Q2 2021

- Project team
- Product design
- Project activities
- Community
- New official website

Q3 2021

- ICPSwap beta 1.0
- Seed-round fundraising & strategic fundraising
- WP 1.0 & one-pager 1.0

Q4 2021

- Private sale & public sale
- ICPSwap 1.0
- Issue ICS tokens
- Requite early supporters
- List ICS
- Trading & Mining test

Q1 2022

- Liquidity Mining
- ICS-burning program
- Improvement in functionality
- Eco-developer grant

Q2 2022

- Eco-integration program
- DAO Governance public test
- Official eco-cooperation & marketing activities

Q3 2022

- ICPSwap 2.0
- DAO Governance
- NFT innovative functional testing
- Chainkey cross-chain innovation

Q4 2022

- NFT innovative function
- Expand ICPSwap ecosystem
- Explore cross-chain provision of financial and market services
